30 August 1967

MEMORANDUM FOR : Messrs. Fischer and Wollenberg

SUBJECT : Revised TOD Table #4 (Sub-Functions/  
Subject Targets), Whether or Not to  
be Applicable to all Target Areas

1. Two meetings ago it was our tentative consensus that the breakout which is envisioned by the attached table #4 would apply only to the USSR, Communist China, and possibly to a third country. Previously the concept had been to apply this to all Target Areas.

2. Mr. Fischer has reconsidered this matter and is, I understand, of the opinion that such a limitation would cause a serious lack in our collection of important data for TOD. He therefore desires that our Committee give further consideration to this matter.

3. Under our general working arrangements, whereby we all try to not change positions casually, but where we all recognize that our effort is a developmental one which involves looking backward also as we go forward and increase in our understanding of the TOD problem, I think that Mr. Fischer's request is reasonable and that we should reconsider this matter. I too have continuing doubts about this point. I am mindful that [ ] for CIA indicated that providing the data contemplated on Table #4 for each Target Area would be a difficult task, and I believe the DIA reaction is somewhat similar to [ ]

4. Let us plan to discuss this matter at our next meeting.

[ ]  
Chairman TOD Committee
